At St. Joseph Institute for the Deaf—Indianapolis, our classrooms are anything but quiet. All around, children bustle about, learning, growing—and yes, talking. With advanced technologies and specially trained staff, St. Joseph Institute works with children who are deaf and hard of hearing to help them develop spoken language and get ready to succeed—in school and in life. It’s a scenario many parents can’t imagine when they first learn their child is deaf. But it’s a scenario of success, accomplishment and outright joy that happens here every day.

We hope you will join us
as we celebrate 10 years of
giving deaf children a voice.
